Procurement Operations and Systems

Rosenheim, Germany | tarunkataray9@gmail.com | linkedin.com/in/tarunkataray

Procurement operations profile with experience across supplier sustainability, commodity management, procurement controlling, and internal workflow development within Knorr-Bremse Sfs.

KEY METRICS

- EUR 54M supplier sustainability reporting scope, 14 suppliers, ~70 percent coverage
- EUR 20M+ commodity spend exposure across 60+ suppliers (Motors and Couplings)
- EUR 18M decarbonisation assessment scope, 11 suppliers
- EUR 1.8M supplier governance (NDA and SCoC), 32 suppliers

PROCUREMENT FUNCTIONS (KNORR-BREMSE SFS, RAIL)

- Supplier Sustainability: Scope 3.1 reporting (carbmee, GHG Protocol), decarbonisation assessments (ISO 14001 / 50001), supplier governance.
- Commodity Management: Motors and Couplings - spend visibility, KPI reporting, MSA / QAA cycle support.
- Procurement Controlling: supplier documentation, escalation handling, contract structures, reporting discipline.
- Tools and Processes: contract review workflow, BATNA / ZOPA / Kraljic negotiation toolkit, spend-analysis tooling.
- AI Working Group: internal AI use-case prioritisation and prototype delivery.

SELECTED SYSTEM - ENTERPRISE SPEND CUBE

- Internal desktop application for procurement spend analysis. Built independently end-to-end.
- Stack: React, Electron, DuckDB, TypeScript.
- Features: multi-file Excel consolidation, on-demand pivots, supplier and commodity analysis, management reporting views.

EDUCATION

- M.Sc. Advanced Industrial Engineering - TH Rosenheim, Germany. Thesis: AI Adoption Strategy in Global Manufacturing Enterprises.
- B.Tech Mechanical Engineering - VIT Vellore, India. Specialization: Energy Engineering.

TOOLS AND METHODS

- Procurement: Strategic Purchasing, Commodity Management, Supplier Governance, RFx, TCO, Should-Cost, Scope 3.1.
- Systems: SAP MM / Ariba, Excel + VBA, Power BI, carbmee, EcoVadis, NQC, Sphera.
- Technical: TypeScript, Python, SQL (DuckDB), React, Electron, Prompt Engineering, Agentic Workflows.
